BANGALORE ELECTRICITY SUPPLY COMPANY

(Wholly owned by Government of Karnataka)

No.: BESCOM/BC-53/GM(DSM)/DGM(EV)/2026-27/ 144 Date: 15 JUL 2026

Proceedings of the Pre bid Meeting held on 06.07.2026 at 12.00 PM in the chamber of GM (DSM&EV), Ground Floor, Block-2, Corporate Office, BESCOM, K. R. Circle, Bengaluru regarding the tender floated for "Upgradation of Existing Delta Fast EV Chargers to Latest CCS-2 EV Chargers under Buyback Arrangement".

Chairperson:

1. Smt. Uma H M: General Manager (DSM), Corporate Office, BESCOM.

Officers Present:

Sl. No.	Name	Designation
1	Smt. Anasuya G	Deputy General Manager (EV), BESCOM
2	Sri. Vijay B	Assistant General Manager (EV), BESCOM
3	Smt. Nagarathna V	Manager-3(EV), BESCOM

Representatives of Prospective Bidders:

Sl. No.	Name	Firm
1	Sri. Madhukumar C R	M/s Adelphi Technologies Pvt. Ltd. (Delta)
2	Sri. Yashasvi S	M/s Amplify Cleantech Solutions Pvt. Ltd. (EVRE)
3	Sri. K Nagaraju	M/s Vinyan Marketing Private Limited (Vincharge)

****

The General Manager (DSM&EV) welcomed all the participants and briefed them on the objective of the pre-bid meeting. Thereafter, the prospective bidders were invited to raise any queries or seek clarifications pertaining to the tender as per the provisions of KTPP Act. The bidders presented their queries, and the same were deliberated upon during the meeting.

The following prospective bidders participated in the meeting:

1. M/s Vinyan Marketing Private Limited (Vincharge)
2. M/s Adelphi Technologies Pvt. Ltd. (Delta)
3. M/s Amplify Cleantech Solutions Pvt. Ltd. (EVRE)

The queries raised by the bidders and the clarifications provided are as follows:

Sl. No.	Firm Name	Clarification Requested	Response
1	M/s Vinyan Marketing Private Limited (Vincharge)	The bidder requested a briefing on the qualifying requirements of the subject tender	Refer Clause 12.2 of the Invitation for Bids (IFB) of the tender document.
2		The bidder sought clarification regarding the buyback arrangement.	Refer Clause 8 (scope of the work) of the IFB.
3	M/s Adelphi Technologies Pvt. Ltd. (Delta)	The bidder sought clarification regarding the annual turnover requirement and the minimum quantity of chargers required to be supplied by the bidder to meet the qualifying criteria.	Refer Clause 12.2 of the IFB of the tender document.
4		The bidder sought clarification regarding the Key Technical Requirements of the 7.4 kW Type-2 charger, specifically the provision stating that the charger shall be "upgradable up to 11 kW through firmware upgrade".	Refer the technical specifications prescribed under Clause 2 of Section 5 (Annexures) of the tender document.
5	M/s Amplify Cleantech Solutions Pvt. Ltd. (EVRE)	EVRE submitted that the delay in the issuance of the Letter of Intent (LoI) may impact the validity of the prices quoted for the subject work.	-
6		As stipulated under Clause 12.2, Sl. No. 7 of the Invitations For Bids (IFB), the quantity-experience criterion requires the chargers to possess PMP certification in addition to NABL/ARAI/CPRI/ICAT certification. Since PMP certification is issued by only a limited number of agencies and the majority of CCS-2 chargers available in the market are not PMP-certified, this requirement unduly restricts competition. It is therefore requested to remove the requirement for PMP certification and consider ARAI/NABL/CPRI/ICAT type-test certification as sufficient	Corrigendum is being issued for removing the requirement of PMP certification, with a view to encouraging wider participation of eligible bidders.

		for meeting the qualification criterion.	
7		With reference to the value-experience criterion of ₹72,86,347 specified under Clause 12.2, Sl. No. 6 of the Invitations For Bids (IFB), it was requested to clarify whether experience in the supply, erection, and commissioning of any type of EVSE (AC or DC) shall be considered, or whether the requirement is restricted to DC/CCS-2 fast chargers only.	Refer Clause 12.2 of the Invitation for Bids (IFB) of the tender document.
8		It was requested to confirm that where the bidder is itself the Original Equipment Manufacturer (OEM), its own credentials shall be considered sufficient to satisfy both the value-experience criterion under Sl. No. 6 and the quantity-experience criterion under Sl. No. 7 of Clause 12.2 of the Invitations For Bids (IFB), and that submission of a separate OEM authorisation shall not be required.	Refer Clause 12.2 of the Invitation for Bids (IFB) of the tender document.
9		Whether bidders are required to supply only the 60 kW charger, with provision for future upgradation to 120 kW, and that payment shall be made only for the 60 kW charger supplied. It is also requested to confirm that no additional power modules or hardware for the 120 kW upgrade are required to be installed at the time of supply.	Refer Clause 2 of Section 5 (Annexures) of the tender document.
10		It was requested to confirm that the existing sanctioned load, transformer capacity, and incoming power supply at the project sites are adequate for installation and operation of the proposed 60 kW CCS-2 DC Fast Chargers, with provision for future upgradation to 120 kW. It is further requested to clarify that any upstream electrical infrastructure	-

		augmentation, if required, shall be carried out by BESCOM at its own scope and cost, as is already specified for the metering cubicle.	
11		The Invitations for Bids (IFB) specify the establishment of EV charging infrastructure at 13 locations, whereas Annexure-5 lists 12 locations. It is requested to clarify the project locations and provide the final list of locations along with the number of 60 kW CCS-2 DC Fast Chargers to be installed at each site.	Tentative list of locations as per the scope of work is enclosed as Annexure.
12		Whether the required quantity for new installation is 13 Nos. of 60 kW CCS-2 DC Fast Chargers and 2 Nos. of 7.4 kW AC Type-2 Chargers. It is also requested to clarify the minimum quantity that will be procured in view of the contract provision permitting variation in item quantities and overall contract value.	Tentative list of locations as per the scope of work is enclosed as Annexure.
13		It was requested to clarify the location where the dismantled 30 kW DC001 charger will be recommissioned, i.e., whether at the same premises or at a different location. It is also requested to confirm whether the transportation and civil works required for such relocation are included within the scope of the quoted BOQ.	Tentative list of locations as per the scope of work is enclosed as Annexure.
14		It was requested to clarify the commercial treatment of failures of the CCS-2 charging gun and rectifier modules, as these items are excluded from the scope of AMC and are stated to be replaceable only with BESCOM's approval. It is also requested to confirm whether such replacements will be covered under the OEM warranty or treated as chargeable items. Further, it is requested to clarify that uptime requirements and SLA penalties, if any, shall not be	Refer Clause 8.3 (b) of Invitation for Bids (IFB).

		applicable during the period taken for obtaining BESCOM's approval and replacement of these components.	
15		Quotes are excluding GST with BESCOM paying GST separately. Please clarify GST treatment on the buyback (BESCOM disposing old chargers to the bidder) and confirm the invoicing mechanism for supply vs AMC (service) portions under the percentage-bid structure.	Refer Clause 42, Vol 1 Section 3 GCC.

The meeting concluded with a vote of thanks.

General Manager (Ele.)
DSM&EV, BESCOM
